

Carbon Reduction Plan . 2024

Supplier name: Second Front Systems Limited

Publication date: 27/03/2025

Commitment to Achieving Net Zero

Second Front Systems Limited is committed to achieving Net Zero emissions by 2050

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024

Additional details relating to the baseline emissions calculations.

This is the first time we have reported our carbon footprint, so this calculation establishes our baseline. It is based on the period from November 2023 to October 2024.

Our Baseline calculation includes:

- Scope 2: Indirect Emissions
- Scope 3 Categories: 1: Purchased goods and services: 3: Fuel and energy related activities: 4: Upstream transportation & distribution: 5: Waste generated in operations: 6: Business travel/Hotel stays: 7: Employee commuting/Teleworking: 8: Upstream leased assets.

Our Baseline deviates from the requirements under PPN 06/21 as follows:

- Scope 1: Direct Emissions is not included as heating is included in scope 2 energy, no fuels of biological origin, no processes or equipment that directly release greenhouse gases, there were no company vehicles. Scope 3: Category 9: Downstream transportation & distribution: is not included as no transportation paid for by customers.
- Scope 3: Category 1: Purchased goods and services: is included as IT support, software & health Services. Scope 3: Category 3: Fuel and energy related activities: is included as upstream emissions from fuels/energy and T&D losses are included. Scope 3: Category 8: Upstream leased assets: is included as AWS spend.

Carbon Reduction Plan . 2024

Baseline Year Emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0 tCO ₂ e
Scope 2	0.5 tCO ₂ e
Scope 3 (included sources as detailed above)	2,851 tCO ₂ e
Total Emissions	2,851.5 tCO₂e

Current Emissions Reporting

Baseline Year Emissions:	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0 tCO ₂ e
Scope 2	0.5 tCO ₂ e
Scope 3 (included sources as detailed above)	2,851 tCO ₂ e
Total Emissions	2,851.5 tCO₂e

Emissions Reduction Targets

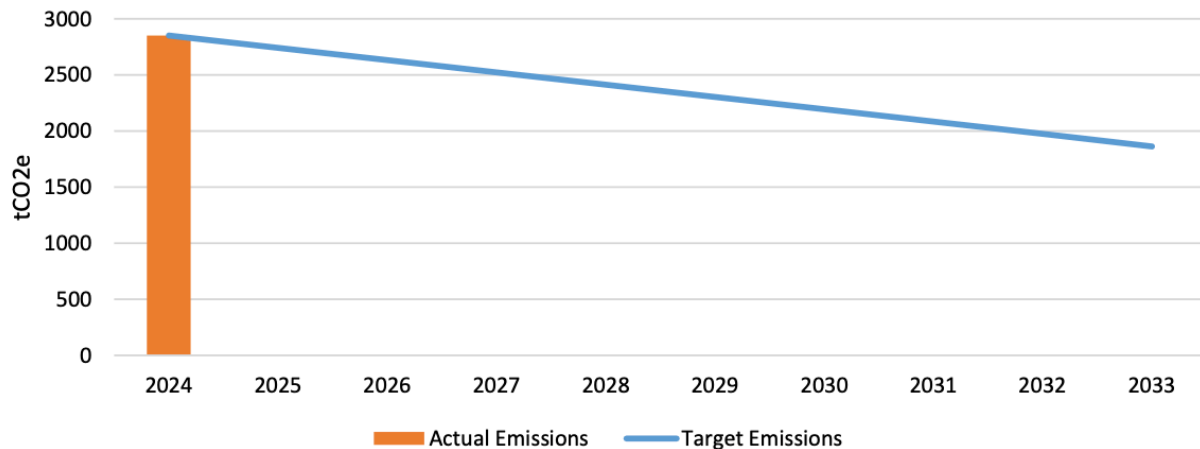

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 2,303.1 tCO₂e by 2029. This is a reduction of 19.2 %

Progress against these targets can be seen in the chart below:

Carbon Reduction Plan . 2024

Carbon Reduction: Projected vs Actual

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2024 baseline and the measures will be in effect when performing the contract.

- Second Front Systems Limited is set up as a remote working business to minimise employee commuting emissions
- We are paperless
- Our UK employees use renewable energy when working from home

Future Carbon Reduction Initiatives

In the future we hope to implement further measures such as:

- Only travel when necessary and use virtual meetings for majority of time
- Continue to grow the business using the remote model

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standards for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting

Carbon Reduction Plan . 2024

Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
