

2F Game Warden for FedRAMP

Three paths to accreditation. **One platform built to get you there faster.**

The Challenge

FedRAMP® accreditation is your gateway to deploy software on government networks. However, this is traditionally a complex, time-consuming, and resource-intensive process.

Time and Cost Barriers: Typically takes 24+ months and over \$3M in investment.

Single Solution: Some teams have a sponsor. Some don't. Others need compliance without full ATO.

Operational Drag: Compliance built from scratch slows delivery and drains engineering resources.

Growth Constraints: What works for initial accreditation doesn't scale as demand, environments, or mission needs expand.

The 2F Solution

Game Warden for FedRAMP helps you achieve FedRAMP accreditation and compliance — delivering FedRAMP your way, built around your mission needs.

Deploy in ~90 Days: Move from readiness to operational deployment in months, not years.

Reduce Cost and Risk: Skip the heavy lift of building and running your own FedRAMP stack.

Flexible FedRAMP Pathways: Second Front is the only solution offering multiple pathways to FedRAMP accreditation.

Built for Growth: A single, unified platform that evolves with your FedRAMP needs — driving faster growth in the government market.

The 2F Difference

Delivering multiple accreditation paths at every impact level, enabling you to scale your government business from day one.

Three Paths to FedRamp

INHERIT
FedRAMP ATO—fast

2F Game Warden for FedRAMP

Enter the federal market. **Your way.**

Leverage Second Front's FedRAMP authorization, own your FedRAMP listing, or validate your FedRAMP compliance — all on one trusted platform built to scale your government business.

1.

INHERIT

Leverage our FedRAMP ATO controls

- ✓ Jump-start your FedRAMP journey with Second Front's existing ATO
- ✓ Fastest path to the Federal market
- ✓ **NO** sponsor needed

2.

OWN

Get your own FedRAMP ATO

- ✓ Your own FedRAMP ATO and Marketplace listing
- ✓ Strongest federal procurement credibility
- ✓ **YES**, sponsor needed

3.

PROVE

Achieve baseline equivalency

- ✓ Meet FedRAMP security equivalency without formal government review
- ✓ Validated security requirements
- ✓ **NO** sponsor needed

Your path. Built for success.

However you pursue FedRAMP accreditation, 2F has the path built around your needs.

- ✓ FedRAMP ATOs at every impact level — Low, Moderate, High
- ✓ Deploy across AWS, GCP, and Azure with AI-powered efficiency
- ✓ Deploy in as little as 90 days and cut costs by up to 85%
- ✓ Multiple paths to FedRAMP success with or without a sponsor
- ✓ Full control of your data with no vendor lock-in or portability limits
- ✓ End-to-end partnership that others promise, but 2F delivers
